

# Professional **ELECTRICIAN** AND INSTALLER

Professional Electrician & Installer reaches over 60,000 electrical contractors and installers each month at the trade counters of nearly 2,000 electrical wholesalers. Practical hands-on tips are explained through step by step guides and product tests, with industry news, electrician profiles and new business ideas combining to make PE the only journal to cater for every aspect of an electrician's business. The magazine also features major competitions and product giveaways.
